GyroQ Turns Professional!

The majority of our clients purchase GyroQ Developer Edition. However, more than we expected are choosing GyroQ Essential Edition. Using the word "Developer" in the product title might lead people to believe that they need to be a developer, programmer or power user to benefit - but this is not the case, as we demonstrate with the tags available in this newsletter.

To make things clearer, we have decided to rename the Developer Edition to **GyroQ Professional Edition**.

GyroQ Upgrade Offer Extended

To help you make use of new custom Tags, we are extending our upgrade offer*. If you purchased GyroQ Essential, and would like to be able to use custom Tags, then upgrade now to the Professional Edition with a **25% discount**. Simply email support@gyronix.com and include your current GyroQ Essential Edition license key.

A Secret GyroQ Feature Revealed

You will like this!

As you use GyroQ more and more, you will start to see just how many ways it can be used to improve your productivity - and it won't be long before you have a dozen different tags!

In order for you to remain highly productive, you will want to take advantage of a secret GyroQ feature for rapid Tag selection. See it in action at...
